

W13 GWR COLLETT FULL BRAKE (BG)

40 built 1937-1945; withdrawn 1966-1978; 2 preserved

Diagram K42

57'

These etched sides can be built into a complete coach using products from our range as supplied in our full kits. Please refer to the panel opposite. Should you prefer they can also be used for scratchbuilding.

These vans operated in express parcels trains all over the Great Western system. The internal layout featured a side corridor giving greater security than the previous open plan types. Built in four lots, they were contemporary with the 'Sunshine Stock' coaches.

Sample formations

01.30 Paddington, Banbury, Leamington, Birmingham

BG/Siphon G/Siphon G/BCK/ Siphon G/Siphon G/BG
 | Paddington-Birmingham | Banbury

16.15 Weymouth, Dorchester, Yeovil, Westbury, Lavington, Newbury, Reading, Paddington

 4 Yeovil-Westbury 5 from Reading

Running numbers

158-167 built 1937 121-130 built 1940 91-100, 268-277 built 1944/45

Livery

The coaches were painted in chocolate and cream with white roofs and carried the 'shirtbutton' monogram. Droplight frames were in Indian Red (brick red). Numbers 124 and 126 were painted in GWR brown, the latter branded '8.55 Paddington-Cardiff 1.48 Cardiff-Paddington'.

The final GWR style appeared from 1943 onwards. The cream panel extended from 7" below the cantrail down to 1½" below the windows. Double lining was applied, the lower waist line being 7" below the upper one. Lining was black and gold, and numbers were in the lining panel at both ends. Roofs were painted grey. The monogram was replaced with the new Coat of Arms in the centre of the panel flanked by the words 'Great' and 'Western'. This was later extended to all coaches built since 1936 which had the double lined waist style.

From 1949 they received unlined crimson. W164 was recorded in BR crimson and cream. They should then have appeared in unlined maroon and then rail blue, but photographic evidence is lacking for the former.
